Subject: Fw: Week #2 - Summary of Locations Exceeding Trigger Levels

Fran -

Here's the summary of week 2 TL exceedances that I sent to Dennis earlier this week. We have been using these summaries to give Dennis an early heads-up prior to actually rolling out the data. Please note that the decisions regarding proposed sampling (Yes or No) are not final.

From what I recall we did plan to re-sample where we had arsenic (HW-32) not certain about the others.

Call w/ questions - Kelley

FYI - HQs was provided all the week #2 residential data summaries earlier this week for review - so they have all the data.

Subject: Week #2 - Summary of Locations Exceeding Trigger Levels

Dennis -

Sounds like we still have some issues to work out. I'm at the site and will be on the 1 pm call (I am assuming its the - 5996 #).

In the meantime.... here's a summary of the locations exceeding triggers for week sampling. Please note that where possible - I tried to include additional information regarding water provision (EPA or Cabot), any treatment and/or methane venting.

Talk to you later - Kelley
